

VISION 2028

MY AGENDA FOR MAHADEVAPURA ASSEMBLY CONSTITUENCY DEVELOPMENT

Mahadevapura Constituency is a land of opportunities and is home for very diverse set of residents who have different expectations, face different challenges, and have different economic background

Mahadevapura as a mega constituency and varied Stakeholder expectations, faces its unique set of challenges. I am well aware of these challenges and commit to overcoming the same by working closely with all stakeholders

Negotiation Skills, Intense Stakeholder Management, Quick Decision making and Problem Solving are some of the Skills I have adopted regularly. I am confident of leading the growth journey of Mahadevapura by resolving issues/roadblocks

Most of Bengaluru's Technology, Fin Tech, R&D and Start-up's happen out of Mahadevapura. We have successfully created the ecosystem to attract the world's leading Technology Firms, Global Inhouse IT Centre's (GIC's), R&D Centre's, Start Up's and Fintech Companies. Mahadevapura is the EPICENTER of Job creation not just in Karnataka but across India. Highly talented Skilled workforce are eager to move to Mahadevapura and settle here

Mahadevapura Task Force which was envisioned by me is an unique platform which empowers Citizens to collaborate with the administration and get things done. Currently, the 8 Task Forces have matured and 500+ Volunteers are actively participating to solve neighbourhood problems and create a better neighbourhood.

My focus would be to create a sustainable, Safe, inclusive, and liveable neighbourhood for every resident in Mahadevapura.

In this context, my Agenda for the period 2023-28 is as follows:

MOBILITY

The mobility challenges in Mahadevapura can be overcome only when more than 70% of commute is done using Public Transport. I will be a strong advocate for promoting Public transport, Walkability and Cycling.

#betterCommute

Public Transport as a Game changer for easing Traffic Congestion

1. Commercial Operation of Whitefield Metro in 2023 with over 3 lakh ridership
2. Commercial Operation of ORR Metro in 2026 with over 5 lakh ridership
3. Commercial Operation of Corridor 4 of Kanaka line of Bengaluru Suburban Rail Project (BSRP) in 2026 will provide seamless connectivity to satellite towns
4. Extend all support for speedy completion of Metro in Sarjapur Road
5. Ensure more BMTC minibuses for Mahadevapura
6. Ensure the Bus shelters are well maintained and usable
7. Promote Inter-Modal Connectivity Projects
8. Reserving Bicycle paths wherever possible.

Last Mile Connectivity

9. Promote SHARED-AUTO as an option for last mile connectivity
10. 100 kilometres of walkable footpaths around Metro and Suburban Rail Stations
11. Implement Pre-Paid Auto Kiosks
12. Promote Shared Mobility Infrastructure and adoption
13. Support Citizen led initiatives in their neighbourhood

Strengthening the road infrastructure

14. Complete 14 New Roads and 19 Road Widening works
15. Complete the East Airport Corridor connecting Dommasandra to Bengaluru International Airport

16. Complete Railway Over Bridges(RoB) at Caramelram and Panathur
17. Complete Railway Under Bridge (RUB) at Panathur and Doddanekundi
18. 25 Kilometres of High-Density Corridors will be developed in line with TenderSURE Standards
19. 10 Kilometres of Arterial Roads will be converted to Concreted Roads
20. Upgradation of selected Panchayath roads to Public Works Department Roads to improve quality of infrastructure
21. Converting select Panchayat roads into PWD road and improving their infrastructure.
22. Proper management of Panchayat Raj and PMGSY roads

CleanStreet75K Challenge @ Mahadevapura

23. Promote partnership between the administration, Corporates, NGO's and residents to achieve cleaner neighbourhood
24. Space transformation for visual cleanliness and avoiding garbage dumping

Enhance safety for all road users

25. 50 Road Junctions will be developed to improve flow, improve Safety and space transformation
26. 100% conversion to LED Street Lights

JAL SHAKTHI (WATER MANAGEMENT)

#betterneighbourhood

Access to clean and safe drinking wate for all would be achieved through the Cauvery Stage V Project, Jal Jeevan Mission, Catch the Rain initiative and Kere's rejuvenation.

Piped drinking water for all

27. Additional 100 Million Litres of Cauvery water for Mahadevapura starting from 2024
28. 2.5 lakhs additional household will get piped drinking water from Cauvery
29. 100% coverage of Functional Household Tap Connection (FHTC) Piped water in rural areas through Jal Jeevan Mission
30. Promote water conservation initiatives in partnership with citizens

Treatment of Wastewater

31. Commission Underground Drainage Network in all the 31 Villages in the BBMP Limit by 2024 and based on application
32. 5 Fully Functional Sewage Treatment Plants to treat 265 Million Litres of waste water
33. Promote decentralised Sewage Treatment Plants in residential complexes and IT Parks to minimise untreated water being discharged into public places, Rajakaulve's and Kere's
34. Feasibility study of reuse of the additional water out of recycled water in residential complexes.
35. Steps for phase wise construction of UGD in Gram Panchayat areas

Kere and Kalyani rejuvenation to improve ground water

36. 60+ Kere's would be developed with the primary focus of increasing water retention and improving the biodiversity
37. Minimise or eliminate the wastewater/Sewage entering the Kere's
38. Safeguard the Kere's from any encroachments or dumping of Construction Debris
39. Bellandur, Varthur, Ramapura and Yelle mallapa Shetty Kere will be developed as biodiversity and Community engagement space
40. Traditional water bodies such as 'Kalyani's' and 'Kuntes' will be resurrected and maintained with the sole purpose of improving the ground water table

Rajakaulve's and Keres for flood mitigation

41. 135 Kilometres of Rajakaulve's would be developed to manage the rainwater flowing between Kere's
42. Sluice Gates will be installed in 16 Key Kere's to manage water levels and mitigate floods
43. Promote **"CATCH THE RAIN INITIATIVE"** to improve the water retention
44. Development of Rajakaluves even in rural areas.

SUSTAINABILITY AND ENVIRONMENT

#betterneighbourhood

Mahadevapura Constituency has very high population density and it creates huge constraint on natural resources. However, it is very important to manage development in a sustainable and inclusive way.

Improving green cover in Mahadevapura

45. Atal Botanical Park in Kannamangala will be developed into a biodiversity park with primarily native plants. Further, Land will be reserved in every BBMP ward and Grama Panchayat to develop parks for public recreation and fitness and also to improve the green cover in the constituency
46. Gunjur and Manduru Forest area will be developed as a Tree parks.
47. Promote citizen engagement in tree plantation, greening in residential complexes and individual homes.

SUSTAINABLE GARBAGE MANAGEMENT

Refuse, Reduce and Reuse will be the 'Mantra' for waste management.

48. Ward level Dry Waste Collection Centres (DWCC) at five or more locations
49. Each Grama Panchayat will have a **'KASA CENTRE'**. This will be equipped to manage and process wet waste, dry waste, Garden waste, rejects, diapers, pads

and E-waste.

50. Implement modern Garbage Transfer Stations in 1 or more locations
51. Promote decentralised wet waste management in Residential Complexes and IT Parks
52. We will provide safe and reusable cloth pads/cups to all women and girls. We will train our health workers about benefits of modern practices that promote healthy practises. We have already initiated this program as part of ' Namma Swaccha Kannamangala' on a pilot basis and will soon extend it to other areas too. This is another source of gain full employment for women
53. Mahadevapura will completely eliminate Single Use Plastic in line with the clarion call by our Prime Minister Shri Narandra Modiji.
54. We will promote preloved stores, repair junctions and Cutlery banks. This will also provide gainful employment to the marginalised section of the society
55. Religious places will be declared as zero waste areas and areas around it will be declared as a green zone.
56. Priority for more scientific management of the garbage coming from Bangalore.
57. Removing the garbage completely at Manduru and transforming this location as a spot for public, sports and cultural activities.
58. Capping the land filling in and around Mittaganahalli in Manduru Panchayat and priority to convert it into a park or a Stadium.

Prevent indiscriminate Animal waste disposal

59. Methodical collection of Animal Waste by the designated agency and scientific disposal of Animal Waste at the Plant under construction at Kannur. This is the first of its kind in Karnataka.

Citizen Engagement Initiatives

60. Promote citizen engagements in space transformation initiatives, Plogging

events, Swachh Bharat Initiatives in every neighbourhood

61. Promote segregation of garbage at source
62. Promote Swachh Bharat and Garbage Segregation awareness initiatives among all School Children.

Piped Natural Gas connection to promote sustainability

63. 2 Lakh household will get Piped Natural Gas with an investment of over Rupees 850 Crores

Increase coverage of Electric charging stations

64. Ensure installation of Electric Charging stations across Mahadevapura to promote Electric Vehicles adoption and thus reduce air pollution.

PUBLIC, PRIVATE PARTNERSHIP

Partnerships with Corporates, Non-Governmental organisations like “The Ugly Indians” and Citizens groups in areas such as Education, Health, Environment, public amenities, Keres, parks and space transformation initiatives would be encouraged.

Inspire Citizen Participation

65. **JANA HITA APP** would be enhanced further to help promote transparency in the works happening in Mahadevapura and help residents report and resolve issues in the neighbourhood.
66. Encourage Citizens to collaborate with the administration through active participation in the Ward Committee meetings.

Inspire Corporates Participation

67. Create an annual forum - ‘**CSR HABBA**’ for donors and reputable NGOs to meet and engage to quickly enable them to assess needs and agree outcomes

68. Engage with specialist agencies and enlist their services for areas such as ground water management, teaching aids, skill development, health care and many more
69. Encourage entrepreneurs to invest in and build business that will provide solutions for public benefit. The classic example is waste management. We have engaged with entrepreneurs that are investing in waste management where the Government has provided basic infrastructure of land, power and water..

WARD AMENITIES

#betterneighbourhood

Creating a clean, Safe and Liveable neighbourhood will be achieved by

70. More funds allocation for Ward Roads to ensure proper road side drains, footpath and road works
71. Additional funds would be allocated for LED Street Lights to ensure improved Safety in the neighbourhood
72. Encourage the installation of CCTV Camera's to ensure improved Safety in the neighbourhood
73. Establishing Electric crematoria to resolve the issue of burial grounds.

SOCIAL EMPOWERMENT

#ourMLAcares

Creating an inclusive neighbourhood will be achieved by

74. Namma Clinics and Primary Health Centres which would provide free consulting, diagnose and medicine for all residents
75. Maximising the coverage of beneficiaries for all BBMP, Karnataka Government and Union Government Welfare schemes
76. Enhanced focus on Welfare of Pourakarmikas, Drivers and helpers involved in keeping Mahadevapura clean
77. Ensuring all Government Schools and Colleges will be upgraded with better

amenities through Government funds and Corporate Social Responsibility (CSR) initiatives

78. Ensuring issue of "Hakkaupathra" to socially underprivileged residents
79. Strengthening the infrastructure in Anganwadis and government schools
80. Promoting e-Katha mela's to ensure property owners get the Katha's on time.

SPECIAL PROJECTS

#ourMLAcares

Mahadevapura is a developing area and requires a lot more infrastructure to meet the varied expectations of the residents

81. 250 bedded multi-speciality Hospital will be inaugurated
82. All Primary Health Centres will be refurbished with better amenities
83. 13 "**NAMMA CLINIC**" will be constructed in BBMP Limits and more in Gram Panchayat areas
84. Strengthening of infrastructure in Kadugodi and Varthur first grade colleges
85. Strengthening of infrastructure in Channasandra and Immdahalli Polytechnics
86. Ensure completion of 7 Playgrounds for the benefit of children and youth
87. All High Tension Cables will be shifted to Underground cables to improve the reliability and safety in power transmission
88. Setting up of additional KPTCL Power stations to enhance the quality and reliability of Power supply

LAW AND ORDER

Mahadevapura has been one of the safest place for the residents. I will ensure this is strengthened even further by

89. Installation of CCTV Camera's in all vulnerable areas
90. Ensuring all Police Stations are adequately staffed
91. Visible Patrolling in key junctions, arterial roads and key vulnerable areas
92. Ensuring priority is given for safety of Women and Children
93. Promoting People friendly Police stations where stakeholders for varied socio-economic groups are feeling safe and treated with respect.

CULTURE, EDUCATION, EMPLOYMENT & SPORTS

94. Priority for construction of International Stadium at Manduru Biomining location covering 20 acres.
95. Programmes highlighting the pride of Kannada and encouraging cultural events.
96. Development of indoor auditoria and Rangamandiras at Hoodi, Doddakannelli, Nimbekayipura.
97. Availing all Government benefits for Women and elderly.
98. Complete support to the Start-ups that come up in Mahadevapura.
99. Kannada learning campaign already in place for Non-Kannadiga people will be extended to other areas.
100. All steps ensuring facilities for training the artists and sportspersons.
101. Private Udyoga MELAs for creating job opportunities for eligible and unemployed.

It will also be my priority to complete all those in progress and launch sanctioned projects within stipulated time.

In the background of the experience gained during 2018-23, by establishing Mahadevapura Task Force, which is first of its kind in India, and taking the citizen of the constituency into confidence, I will put all my efforts to the overall development of the constituency by strengthening the work culture of citizen participation.
