FOREWORD

It is my proud privilege and great satisfaction to present the 71st edition of NCRB's annual 'Crime in India' report, providing a comprehensive account of crime statistics for the year 2023. Since its inception in 1953, this report has served as a principal reference document for diverse stakeholders at both national and international platform.

The nature and methods of committing crimes are changing rapidly in modern society. Criminals increasingly leverage advanced technology, adding layers of complexity to crime detection and prevention. This poses significant challenges to law enforcement agencies, policymakers, and other stakeholders in the criminal justice system. Since, the report is of utmost importance, it becomes imperative to provide access to comprehensive crime data, enabling investigative agencies to analyze emerging trends, patterns, and underlying causes to enable them to frame effective crime-combating strategies.

The primary objective of this report, which serves as the principal reference document for crime statistics, is to address all these critical aspects. Beyond being a valuable resource for law enforcement, it also serves as a vital platform for social scientists, criminologists, and officials

within the criminal justice system engaged in crime data analytical research.

The publication of this report is made possible by the cooperation of States and Union Territories through the prompt submission of data to NCRB which is testament to the dedicated teamwork and engagement between the State Crime Records Bureaus / CIDs of States/UTs, and the National Crime Records Bureau. The Bureau is extremely grateful to the DGPs of State/UT Police, Directors of SCRBx/CID, and their teams for their dedication, determination and commitment towards the Bureau's objective of bringing out this comprehensive report.

I sincerely appreciate and congratulate the officers and staff of the Statistical Branch, NCRB, for their collective efforts, hard work, unwavering commitment and dedication in the collation and compilation of data for the report.

The digital version of the report, with additional details, is available on our official website: https://ncrb.gov.in

The Bureau greatly appreciates and looks forward to any suggestions and feedback from the stakeholders to further enhance the content and quality of this publication.

Disclaimer

1. The information published in this report has been obtained from States/UTs Police and CAPFs/CPOs. National Crime Records Bureau has only compiled and collated the data and presented it in the form of this report. As data is being furnished by States/UTs/ CAPFs/CPOs, NCRB is not responsible for authenticity of the information. However, any discrepancy observed in this report may be brought to the notice of the Bureau.

Limitations

1. Since the publication caters to the 'Principal Offence Rule' for classification of crime, the actual count of each crime head may be different from reported. This is because among many offences registered in a single FIR case, only most heinous crime (maximum punishment) is considered as counting unit.
2. The Socio-economic causative factors or reasons of crimes are not being captured by the Bureau. Only police recorded crime cases are being captured for this publication.
3. Crime Rates (Crime per lakh population) of States/UTs have been arrived at using the Mid-Year Projected Population of respective States/UTs of 2022 based on 2011 census (Report of the Technical Group on Population Projections, July, 2020, National Commission on Population, Ministry of Health & Family Welfare). However, this is not available in respect of metropolitan cities. Crime Rates for Metropolitan cities have been calculated using Actual Population Census 2011. Hence, Crime Rates of States and Metropolitan cities are not comparable.
4. 'Crime Rate' is not calculated for City-wise Crimes under 'Children, SCs/STs & Senior Citizens' due to non-availability of Population figures of these groups in the cities.
5. Clarifications which were pending for the year 2022 from Nagaland State have been resolved. The figures of 2022, which were provisional in CII-2022, thus represent final statistics in this publication.

Methodology for Data Collection & Publication

A) Data Collection and Compilation Process

Crime in India – 2023 deals with the crime data which refers to the calendar year (1st January to 31st December of 2023). The data collection process including clarifications from the States/UTs/Central Agencies started in Jan, 2024 and continued till July, 2024.

a) State/UT Police:

i. The annual State/UT data for "Crime in India" is furnished by the 36 States/UTs in the NCRB prescribed proformae through a software application developed by NCRB.

ii. Similar data is also furnished for 53 Metropolitan Cities by respective SCRBs /CIDs (i.e. Metropolitan Cities which have the population of 1 million (10 lakh) or more as per Population Census, 2011). However, data pertaining to only 19 Metropolitan Cities with population more than 2 million (20 lakhs) is being published in hard copy. The data for remaining 34 Metropolitan Cities would, however, be available on NCRB Website.

iii. Delhi UT comprises of both Delhi City and rural part of Delhi.

iv. The data is entered by State/UT Police at Police Station/District level.

v. A training is conducted every year for the functional officials (Police constables, HCs, ASIs, SIs, etc. from all States/UTs) to explain the various issues concerning entry of data in input tables.

vi. The consolidation of District/State level data is done by State Police Agencies (SCRB/ CID).

vii. First level data validation is done at the Police Station/District level during the data capturing process itself and Second level data validation is done at the state level at the time of consolidation of District data through the NCRB application.

viii. Data is scrutinized at NCRB for discrepancy / inconsistency. The same, if any, are communicated to the respective State/UT for verification.

ix. Amendments/Rectifications, if any, in the data are incorporated in the database by NCRB.

b) Central Law Enforcement Agencies/CAPFs:

Details of seizures and prosecutions under Prevention of Corruption Act, Direct Taxes Enactments, Customs Act, NDPS Act, etc. as being furnished by CAPFs (Assam Riffles, Border Security Force, Central Industrial Security Force, Central Reserve Police Force, Indo Tibetan Border Police and Sashastra Seema Bal) and the respective Central Law Enforcement Agencies (viz. CBI, Central Board of Direct Taxes, DRI, Narcotics Control Bureau, NIA and Central Board of Indirect Taxes & Customs) have been published under Chapter 20C & Chapter 20D respectively.

c) Compilation at NCRB:

i. After receiving final data from all States/UTs including Metropolitan Cities, All-India data is generated by NCRB.

ii. The National Level tables for the "Crime in India" publication are generated through software application and cross checked for discrepancy, if any.

iii. Calculations used in the table, if any, are mentioned at the bottom of the respective table.

B) Methodology Adopted for the Present Publication (2023)

a) Principal Offence Rule:

As per the International Standard, the Bureau follows 'Principal Offence Rule' for counting of crime. In other words Principal Offence Rule refers to the system of recording each criminal incident as one crime. If many offences are registered in a single FIR case, only the most heinous crime i.e. the one that attracts maximum punishment will be considered as counting unit.

CRIME STATISTICS - A WORD OF CAUTION!

Crime is manifestation of myriad complex factors. The causes of criminal behavior lie in the social processes and structures. People commit crimes due to the process of socialization that does not develop strong sense of right or wrong and ever-increasing desires act as strong stimulus for taking to crime to fulfill these desires. The genesis of crime can be traced to interplay of various social, economic, demographic, local and institutional factors. The presumption that crime occurs because of the failures of police therefore exhibits a lack of mature understanding of the theories of criminal behavior.

Further, these social factors along with other latent and concomitant factors vary significantly across different regions, states and societies. The differences in procedures over large geographical regions and method of functioning inherent between organizations also creates wide variations. Hence, any comparison among States/districts/regions/social groups etc. on the basis of these published data alone will be too simplistic and is best avoided.

Further, no weightage has been assigned to the gravity or nature of the crime. All crimes have thus been treated equal in counting the total crime for a State or City. More crime registered say, in a city is, therefore, not an indicator of its being comparatively unsafe than the city, where total crime may be less.

Lastly, as crime increases with population, Crime per lakh population (*Crime Rate*) may be a better indicator to assess increase or decrease in crime. However, a word of caution here! The primary presumption that the upward swing in police data indicates an increase in crime and thus a reflection of the ineffectiveness of the police is fallacious. ‘Rise in crime’ and ‘increase in registration of crime by police’ are clearly two different things, a fact which requires better understanding. Thus an oft-repeated expectation from certain quarters that an effective police administration will be able to keep the crime figures low, is misplaced. Increase in crime numbers in a State police data may in fact be on account of certain citizen centric police initiatives, like launching of e-FIR facility or women Helpdesks, etc. The increase or decrease in crime numbers, however, does call for a professional investigation of underlying factors pertaining to the local communities to suitably address the pertinent issues.

Chapter 1A

Summary

(States & UTs)

Certain States like Uttar Pradesh, Delhi, etc. have provided the citizen friendly service of Online Registration of FIR under certain category of offences like 'Vehicle Theft' and 'Other Thefts'. As this may have increased the crime reporting under such heads in these States, they become statistically non-comparable with other States not having such online registration facility.

Chapter 1B

Summary

(Metropolitan Cities)

(19 Cities with more than 2 Million Population)

Certain States like Uttar Pradesh, Delhi, etc. have provided the citizen friendly service of Online Registration of FIR under certain category of offences like 'Vehicle Theft' and 'Other Thefts'. As this may have increased the crime reporting under such heads in these States, they become statistically non-comparable with other States not having such online registration facility.
